Modifications are provided for information purposes only!

Supporters of CBTricks.com paid for the hosting so you would have this file.

CBTricks.com is a non-commercial personal website was created to help promote the exchange of service, modification, technically oriented information, and historical information aimed at the Citizens Band, GMRS (CB "A" Band), MURS, Amateur Radios and RF Amps.

CBTricks.com is not sponsored by or connected to any Retailer, Radio, Antenna Manufacturer or Amp Manufacturer, or affiliated with any site links shown in the links database. The use of product or company names on my web site is not endorsement of that product or company.

The site is supported with donations from users, friends and selling of the Site Supporters DVD's to cover some of the costs of having this website on the Internet instead of relying on banner ads, pop-up ads, commercial links, etc. Thus I do not accept advertising banners or pop-up/pop-under advertising or other marketing/sales links or gimmicks on my website.

ALL the money from donations is used for CBTricks.com I didn't do all the work to make money (I have a day job). This work was not done for someone else to make money also, for example the ebay CD sellers.

All Trademarks, Logos, and Brand Names are the property of their respective owners.

This information is not provided by, or affiliated in any way with any radio or antenna Manufacturers.

Thank you for any support you can give.

ADVICE**

CRAIG

SB: #080178
August 1, 1978

TO: ALL WARRANTY SERVICE CENTERS

FROM: Mike Taylor, Technical Service Manager

SUBJECT: L630, C.B. Transceiver

MAY EXHIBIT PROBLEMS: One or more of the following: low volume, oscillation, no audio dim channel display, or may transmit one frequency on all channel positions.

CAUSE: Problem is due to poor grounding of Audio P.C.B.

SOLUTION: Resolder ground connections on the audio P.C.B. Traces should be soldered on the component side of the P.C.B. as indicated below.

AUDIO P.C.B. (Top View)
