Pace Service Bulletin #0006

**Liability of damages to any equipment is the sole responsibility of the user! Downloading, viewing, or using any information provided on these pages automatically accepts the user to the terms of this agreement!**

**Modifications are provided for information purposes only!**

Supporters of CBTricks.com paid for the hosting so you would have this file.

CBTricks.com is a non-commercial personal website was created to help promote the exchange of service, modification, technically oriented information, and historical information aimed at the Citizens Band, GMRS (CB "A" Band), MURS, Amateur Radios and RF Amps.

CBTricks.com is not sponsored by or connected to any Retailer, Radio, Antenna Manufacturer or Amp Manufacturer, or affiliated with any site links shown in the links database. The use of product or company names on my web site is not endorsement of that product or company.

The site is supported with donations from users, friends and selling of the Site Supporters DVD's to cover some of the costs of having this website on the Internet instead of relying on banner ads, pop-up ads, commercial links, etc. Thus I do not accept advertising banners or pop-up/pop-under advertising or other marketing/sales links or gimmicks on my website.

ALL the money from donations is used for CBTricks.com I didn't do all the work to make money (I have a day job). This work was not done for someone else to make money also, for example the ebay CD sellers.

All Trademarks, Logos, and Brand Names are the property of their respective owners.

This information is not provided by, or affiliated in any way with any radio or antenna Manufacturers.

**Thank you for any support you can give.**

### SERVICE BULLETIN #0006

#### PACE P5512 DESK MICROPHONE TO WORK WITH THE CB 1000B

Due to many requests, this bulletin has been written to expand the use of the P5512 amplified microphone to our CB 1000B Single Sideband Base Station.

This microphone has proven to be a very popular item with our CB-76 and CB DX2300B Base Stations.

To make it work with the import SSB units, a change at the microphone connector must be made. This change is very easy to make. First remove the microphone connector presently installed. Cut the red wire off since it will not be needed. Connect the shield to pin 2 on a 4-conductor plug. This will be ground.

The key line which is black, will connect to Pin 4. The white wire (microphone hot) will connect to Pin 1. Pin 3 is not used.

#### PARTS REQUIRED

1 MICROPHONE PLUG- 4 PIN. PACE P/N IP 26-0017
